

Meadow & Co. Wildflower Honey

Fictional source artwork v7 with evidence-based preflight callouts

BLOCKER

Net content conflict

Artwork says 250g. Product specification and retailer file say 240g. Confirm the approved sellable quantity.

ACTION

Display name consistency

Retailer file uses Wildflower Honey 240g. Update the final display name after the quantity decision.

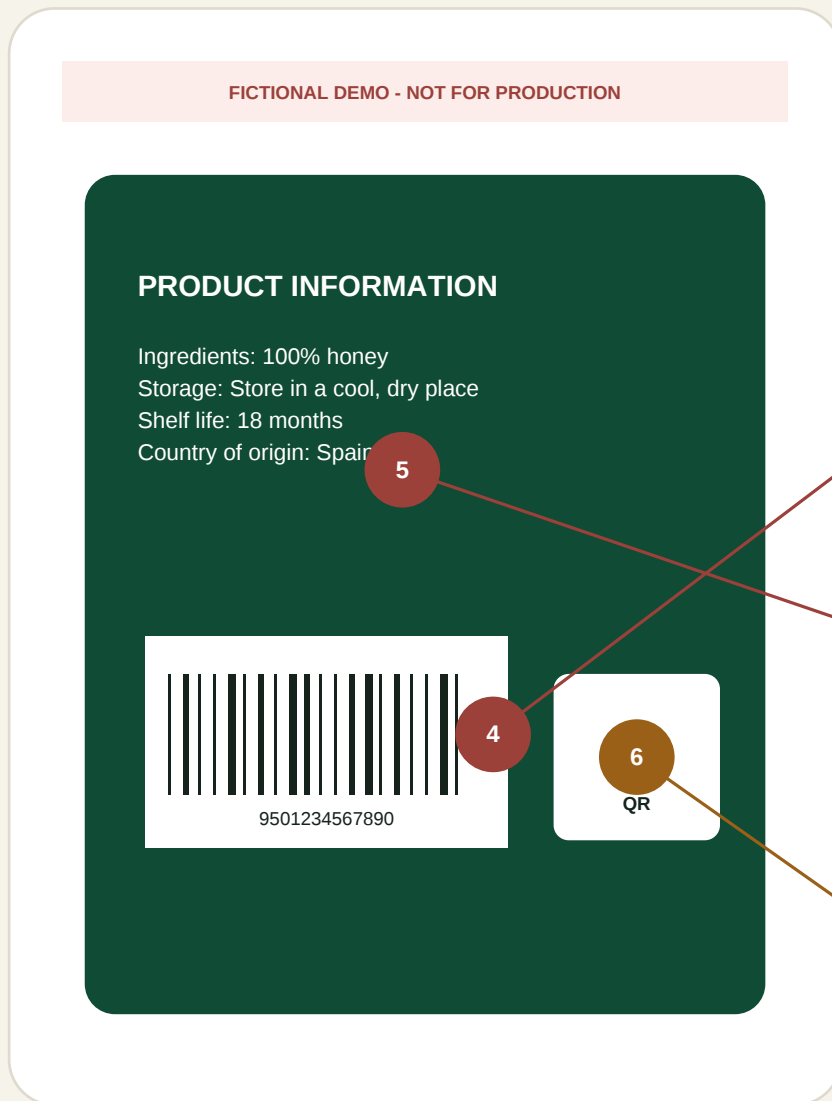

BLOCKER

Responsible business details

Retailer file contains the responsible business name and address. The supplied artwork does not show them.

Meadow & Co. Wildflower Honey

Fictional source artwork v7 with evidence-based preflight callouts

BLOCKER

GTIN mismatch

Artwork carries a fictional demo number ending 0. Retailer data carries an example number ending 1. Replace both with the assigned production GTIN.

BLOCKER

Approved warning omitted

The product specification includes precautionary wording. No warning panel appears on this artwork version.

ACTION

QR target not live

The supplied draft URL opens a placeholder page. Publish and test the final target before generating the production QR.
